

Shoot in China is the result of nine years collaboration between producers Clark Wang & Matt Clarke. Since first teaming up in 2005, they have overseen hundreds of video projects for clients throughout China. They founded SIC, a boutique production house, in 2012.

Shoot in China was set up to produce new media content for China's burgeoning video market. We work with local and international companies on a wide range of video projects throughout China and abroad.

We offer high-end production across a broad spectrum of video styles and genres: TVC, Viral, Short Film, Documentary, Corporate, Interviews

We use the latest in camera and film technology to deliver a TVC standard of production in all of our work. We pride ourselves on delivering a high end product no matter what the job and the budget constraints involved!

Our and familiarity with both international and domestic methods of shooting is invaluable when facing the unique challenges of filming in China

SIC is proud to be the Chinese representative of IQ, the

International Quorum of Motion Picture Producers

Our clients include:
